

CONSTRUCTION LAW REVIEW

First published in 1996 in conjunction with the Society of Construction Law, the *Construction Law Review* is highly regarded by members of the Institution of Civil Engineering Surveyors (ICES) and other industry professionals. With topics covering both building and civil engineering, the *Construction Law Review* has established its reputation amongst law firms, consulting engineers, contractors, quantity surveyors, chartered building companies and local authorities.

The contents of the review range from individual case studies to dispute resolution, procurement, contract law, partnering, risk, delay analysis and much more. The review also features an index of construction legal professionals.
